## SUMMARY

I am a recent software engineering graduate with strong skills in software development and problem-solving. Actively seeking a role as a software developer where I can contribute my expertise to innovative projects and grow within a collaborative team environment.

## EDUCATION

**ENICAR: National Engineering School of Carthage** 2021-2024  
*National Diploma of Engineer in software development*  
**IPEIN : The Preparatory Institute of Engineering Studies of Nabeul** 2019-2021

## PROFESSIONAL EXPERIENCE

**WiseVision AI Technologies** July 2024 - December 2024

*Software Engineer*

- Designed and implemented a price indexing module to compare client prices with competitor prices, highlighting pricing gaps to guide strategic decisions.
- Added advanced filtering options to analyze product affinity within specific categories, refining customer insights.
- Improved the application's user interface and overall user experience, ensuring seamless interaction and usability.

**Tools :** ReactJS - Spring Boot - MySQL

**WiseVision AI Technologies** February 2024 - June 2024

*End of Studies Internship : Customer Behavior Analysis and Data Visualization Web Application Development.*

- Developed the startup's official website, [wisevision.io](https://wisevision.io), to enhance the company's online presence.
- Developed heatmaps and visual analytics to interpret customer traffic patterns and movements within retail spaces, enabling layout optimization by comparing heatmaps of different shelving arrangements to identify the most effective store layouts.
- Built interactive dashboards featuring comparative and correlation tables to analyze sales trends, identify frequently sold product combinations, and highlight top-performing products.

**Tools :** ReactJS - Spring Boot - MongoDB

**CAPIT** June 2023 - August 2023

*Summer Internship : Development of features for a matchmaking system between small businesses, connecting supply and demand.*

- Improved the CRM interface, added a real-time chat functionality and email address verification system.
- Developed a PDF generator for automated invoice creation.

**Tools :** ReactJs - NodeJs - MongoDB

## SKILLS

Python - ReactJs - Angular - NodeJs - JavaScript - HTML5 - CSS - Spring Boot - Java - MongoDB - MySQL - Linux - Git - Django REST Framework - Scrum

## LANGUAGES

**English level B2 - French - Arabic**
